A Golden Prospect

Too many people upon arriving in this "region of fir timber," are ready at an hour's notice to denounce the whole north western shore of the Union possessions as unfit for anything save the production of spars and lumber. They discern nothing save the waving spires of [illegible] conifera, and wil[illegible] ... [illegible] to some old crone's proposition that [illegible] the demand has bereft our country of its [illegible] of timber no inducement can be held out [illegible] ble men to inhabit it. In such conclusions, many of our neighbors who on most topics [illegible] a very considerable degree of good sense, [illegible] concur. But the developing process as yet [illegible] begun, proves the opposite, those who ha[illegible] taken pains to investigate are satisfied that [illegible] North Pacific laves a golden shore, and but a [illegible] will elapse ere Oregon and her young sis[illegible] north side will have a numerous and [illegible] population delving profitably in the Coast [illegible] from Cape Hattery to California. In declaring the existence of gold in goodly quantities through our Coast range, we are advancing no new [illegible] It has been found from time to time at different [illegible] through the range, and in many spots [illegible] have worked with fair success.

Recent development extending almost simulta[illegible] Vancouver Island southward across [illegible] Juan de Fuca, through the Terri[illegible] and Oregon have awakened an [illegible] mineral resources which will scarcely [illegible] out during the present century at least. For some years the Indians dwelling on the coast side of Mount Olympus have occasionally brought to the [illegible] quantities of gold which they claimed to [illegible] from the earth in that vicinity. Precious [illegible] and coal were more recently found on the in[illegible] Straits, at Port Discovery, and either [illegible] Angelos. Deposits of gold have been [illegible] worked on the coast side of Hood's Canal, [illegible] represent as rich and extensive. Between [illegible] the headwater of Hood's Canal, gold exist[illegible] quantities so far as developed, but [illegible] informed that moderate wages can be [illegible] among those Black Hills [illegible] gold has been found in paying [illegible] Chehalis Point. Then mines are dis[illegible] same range in Vancouver Island, and the [illegible] Victoria are represented as nearly [illegible] with excitement occasioned by the big strikes [illegible] Cariboo" within two or three [illegible] their town.

[illegible] silver, copper and coal, are scattered broad[illegible] niggard hand throughout the length and [illegible] of our Occidental domain, and the day [illegible] when larger and if possible more [illegible] crowds will wend their way through [illegible] forests and over the mountains along our [illegible] than ever dared the dangers of Georgia's [illegible] Then Oregon will take that place in the con[illegible] of States for which Providence has des[illegible] The trade and commerce of all nations [illegible] attracted hither, and Columbia river and [illegible] will bear upon their bosoms fleets as [illegible] as never yet have graced the sur[illegible] keep, and our people will enjoy a pros[illegible] paralleled in the experience of the New World. There's a good time coming, wait a little [illegible]

[illegible] Sound Mail.—We are glad to learn from [illegible] Barbank Post Master at Monticello, [illegible] the time of the new schedule [illegible] and that there has been no de[illegible] the mail at Monticello. At a time like [illegible] when our neighbors on Puget Sound [illegible] anxious to receive the latest dispatch [illegible] the earliest possible moment, it is a matter of [illegible] congratulation that for the future no misun[illegible] are calculated to deprive them of their just rights in regard to the mail. This time, our congratulations are not open to the charge of "prematurity."

The Repetition of History.—Under the above head a correspondent of the New York *Times* says:

History repeats itself." "And there is no new thing under the sun."

For the original of the Cleveland Convention see 1st Samuel 22d chap 2d verse:

"And every one that was in distress and every one that was in debt and every one that was discontented gathered themselves unto him and he became a Captain over them and there were with him about four hundred men."

There are now on the way from New York to San Francisco 400 barrels of rye flour and of corn meal 529 hogsheads, 395 puncheons 3 586 barrels and 450 packages. These articles are imported for horse feed by the street railroad men.

Langley's Directory of San Francisco for the year 1864 is nearly completed. It shows an increase in the population of that city of more than 10 000 during the past year. The total population will be nearly 115 000.

Church Dedication.—The new Presbyterian Church, lately erected at Steilacoom, W. T., under the auspices of Rev. G. W. Sloan, is to be dedicated on Sunday next 14th inst.

Sudden Death.—A large, stout built Irishman, name unknown, who had recently been employed in mining on the Rockafellow land between Powder and Burnt rivers arrived sick at the Dalles on Wednesday and died early the following morning.

The Union men of Cincinnati are strongly urging S. P. Chase, late Secretary of the Treasury to suffer his name to be used as a candidate for Congress.

Gen. Winfield Scott Hancock is spoken of as a candidate for the Presidency. The *Golden Era* of San Francisco is his organ in this State.

The British Press on Gen. Grant's Campaign.—The London *Daily News* says: "Grant possesses military skill and moral power which have been hitherto unknown on the Federal side. Even the brilliancy of Lee's achievements does not surpass the masterly skill with which Grant has arranged the combined movements of troops from the frontier of Georgia to the banks of the Potomac. The crushing vigor which has directed his blows in the field and the dogged tenacity which refuses to admit the necessity of retreat, or the possibility of disaster, prove him to be of the right stamp. In fact Grant has fixed his teeth in his adversary, and with sleepless tenacity he clings to him; nor have all the efforts of Southern skill and all the desperate courage of Southern chivalry been able to shake off the sturdy Northerner, or even make him relax his hold."

The London *Daily Telegraph* edited by Thornton Hunt, a man who during the present rebellion has omitted no opportunity to manifest his hostility to the Federal Government, speaks as follows of Gen. Grant, whom the writer a year ago considered as inferior in military capacity:

No vulgar man, no mere idol of the hour is this Ulysses S. Grant, who by sheer hard work and honest fighting has raised himself from a position of obscurity to one of almost unlimited command—who has, if some reports concerning him be true, achieved the rarest of all victories, a mastery over himself and his desires—and who (a virtue not often possessed by the military celebrities of the United States,) is still modest and unassuming. Nor has he yet in any way compromised the reputation which he worthily earned alike by honorable service in the field and by exemplary civic conduct. A man of merely ordinary caliber would scarcely have dared to accept the glorious but terrible responsibility which Grant has quietly taken upon himself, as became a good soldier who was bound to fear no peril, either material or moral, in his country's cause. He was prudent as well as bold: the mere splendor of the office did not seduce him, and only on his own terms, which were wise and well considered, would he consent to assume supreme command. He would submit to no dictation from the amateur Aulic councilors of Washington, holding himself responsible for the issue of the campaign he would not allow it to be prejudiced by any undue publicity being given to his plans, he kept his own counsel, allowed the gossips to talk as they liked, and at length, strong in the confidence of his troops and with the whole enthusiasm of the North to back him, he set forth upon the great march from which he had determined never to return except in triumph. Nor can it be denied that already he has done much. Pushing doggedly onward, with the fierce resolution of a man who is intensely in earnest, he has fought his way inch by inch into the very heart of Virginia and a victory so close to now his army to Richmond, would probably place that Capital in his hands. It is impossible to read the account of his operations without seeing that they are those of a leader who possesses daring and capacity not altogether incommensurate to the mighty task before him. "On to Richmond!" which has so often been simply the vainglorious cry of Northern braggarts, is with this stern and valiant Captain something more, it means something not to be merely talked about but to be done, and if the whole strength of the North intrusted to strong and capable hands can do it that purpose will be achieved.

More of the Alabama Fight.—The London correspondent of the New York *Herald* writes the following:

A gentleman of my acquaintance had a long conversation with the second officer of the *Alabama* and he gave him these particulars. The arrangement was made at Cherbourg with the Captain of the yacht *Deerhound* to go out and witness the fight, and rescue Semmes if he was defeated. The officer also said they had only four or five days provisions on board, and the French Government had forbidden them a supply, so they had to go out and meet the *Kearsarge*, or have the ship sold and the crew disbanded. Trusting to that luck which had ever attended his craft the bold buccaneer sailed out—to meet more than his match. In a few days a new *Alabama*, and a part of a new and part of the old crew, will be cutting the salt sea foam at a speed of sixteen knots an hour, sinking and burning what merchant vessels yet remain under the Stars and Stripes and fitted out as before with British gold, mounted with British guns and supplied with British shot and shell, and accompanied by the malignant joy of ninety nine hundredths of Englishmen. Four American sailors who were captured by the Alabama on one of the last ships she burned, have lately landed in England. They describe the Alabama as a "perfect hell on earth." They say there was not a particle of discipline on board, that they considered their lives in jeopardy every hour and that they did not believe Semmes himself felt any personal security against his lawless myrmidons."

Interesting Decision in Brazil.—The Rio Janeiro correspondent of the London *News* writes under date of May 24th, as follows:

The Brazilian tribunals, having at length given a decision that the sale of the four New Orleans vessels to the house of Phipps, Brothers & Co. on the breaking out of the American war, was a legal one, the *Fannie Crenshaw*, now the *Gracia* and hoisting English colors left here a few days since and proceeded on her voyage to Liverpool. The American Minister, Gen. Webb had notified the English Consul that if the vessels attempted to sail out of the port, the *Onward*, an American corvette then in harbor had positive orders to take or sink them. The *Curlew* then had orders from Captain Crawford, our senior officer here to escort the *Gracia* out of the harbor, and protect her if necessary. The three vessels sailed on the same day, and there was some excitement on 'Change, as it was thought not improbable that some collision might occur. The *Onward* and the *Curlew*, however, came in on the next morning and the *Gracia* went on her way rejoicing. Gen. Webb is extremely irate with the Brazilian Government for allowing the vessel to go out.

Indian Strategy.—The following interesting incident is taken from the correspondence of the New York *Herald*:

One of the Fourteenth New York Artillery—a Seneca Indian, I believe, from the Western part of the State—undertook, on a wager, to bring in a rebel sharpshooter who was perched on a tree in front of our line, considerably in advance of his own. His manner of accomplishing this was as ingenious as successful, and rivals the devilry of any of the Leatherstocking redskins. Procuring a quantity of pine boughs he enveloped himself with them from head to foot, attaching them securely to a branch which he lashed lengthwise to his body. When completed he was indistinguishable to a casual observer from the surrounding foliage, and resembled a tree as closely as it was possible for his really artistic efforts to render him. Thus prepared, and with musket in hand he stole, by almost imperceptible movements, to beneath the tree where the sharpshooter was lodged. Here he patiently waited until his prey had emptied his piece at one of our men, when he suddenly brought his musket to bear upon the "reb," giving him no time to reload. The sharpshooter was taken at a disadvantage. To the demand to come down he readily assented, when the Indian triumphantly marched him a prisoner into camp and won the wager.

Is she an Embryo Pirate?—The San Francisco *Flag*, which has always an argus eye upon any object possibly inimical to the Union says:

At the north side of the wharf, at the foot of [illegible] street, lies a top sail schooner rigged steam propeller which it may be well in these days of piracy and war for the authorities to watch closely. She is pierced for six guns and is being fitted up with officers quarters, hospital rooms and an appartment forward for the men and crew. Her engine and boilers are in, and no name of the maker could be found on either. She is nearly completed, and those employed about her give conflicting accounts of her destination, character, etc.

Left Behind.—We understand that a good many of the steerage passengers who arrived from Portland by the steamer Oregon were unable to resist the attractive powers of books and disposed of their tickets for whatever they would fetch in order [illegible] venture their fortunes in our Island diggings. We are even told of one case in which a married man who was proceeding with his family to the East and had to pay his passage to San Francisco, became seized with the fever and forfeited his money hoping to enhance his worldly condition by a visit to our placer diggings. Our cousins are an enterprising people.—*British Colonist Aug 6th*

When the San Jose stage robbing confederates arrived at Folsom, a posse of about 100 armed men, from Placerville, were in attendance ready to convey the ten pirates to the county seat of El Dorado. This demonstration was occasioned by the report that a gang of Secessionists up in those parts would attempt a rescue.—*Marysville Appeal*

SPECIAL DISPATCHES TO THE DAILY OREGONIAN.

LATER FROM THE EAST.

Dates to August 11.

New York, Aug. 11.—The *Post's* Washington correspondent says:

The papers contain a call written by H. Winter Davis for a [illegible] Convention to meet at Buffalo to make Presidential nominations. He strongly arraigns the Administration for its alleged short comings and urges that it be set aside to prevent anarchy and rebellion.

The *Commercial's* Washington dispatch says that the story of Secretary Stanton's resignation is premature, at least.

The reported resignation of Seward, Blair and Welles is without foundation.

The National *Intelligencer* urges the nomination of Senator Edgar Cowan of Pennsylvania at Chicago.

New York, Aug. 11.—The *Post's* Washington special says that reports from Shenandoah valley represent that Sheridan is pursuing the retreating forces of Early and there is strong probabilities that he will overtake them.

Gold made a slight advance to day owing to the sensation rumors that the rebels had advanced again across the upper Potomac.

The *Times'* Washington special says the happiest results have already followed the appointment of Sheridan to the command of the middle department.

Confidence and tranquility appear to be restored in Maryland and Pennsylvania.

We shall probably have a vigorous pursuit of the rebels down the Shenandoah valley, driving them out entirely.

The *Times* correspondent writing from Sheridan's Army at Bolivar Heights of the 9th, says: The troops are mostly in rugged health.

The 19th corps has improved greatly since their transfer from the swamps of Louisiana.

At this department the 14th corps is said to have arrived and every available man has been ordered to this command.

Washington, Aug. 11.—A letter from City Point dated the 10th gives an account of an explosion of a boat loaded with ammunition.

Buildings were demolished, tents scattered and horses killed in every direction. The new depot buildings are in a mass of ruins. A number of persons were killed and wounded. The boat being unloaded by negroes it is supposed a shell must have dropped there, which communicated the fire to the whole lot, luckily most of the shells struck the steep bank of the landing, or our loss of line would have been very large. The Post Office and Adams Express Office were nearly thrown down. A large number of person occupying them miraculously escaped with slight bruises. A boat loaded with stores lying along side and another was torn to pieces. A large portion of them was raised completely out of the water and thrown through the storehouse on the dock. Capts Benedict and Ames of the Commissary Department were buried in the ruins, but were subsequently extricated, neither being fatally injured. Casualties 50 killed and about 100 wounded. A number of the bodies of colored persons have been found and some alive.

Shells passed through the Sanitary Commission's boat. No one was injured however. It is believed that many of the bodies thrown into the river will never be recovered. Nothing has been ascertained as to the cause of the calamity.

In the Commissary Department 250 persons were wounded. The loss of property is unknown. It will prove large. The steamer *Iowa* caught fire, but a wrecking tug subdued the flames and saved a large amount of ammunition.

Considerable firing is now going on in front.

Denver, August 10.—To correct a probable misapprehension in regard to the safety of travel overland, it is proper to say that although the Indians have been very troublesome lately in attacking unarmed trains and murdering emigrants who are unable to defend themselves, there has, as yet, been no attack by Indians as far as known on the mail coaches which run regularly both ways. The mails were ordered to be stopped at Atchison, Kansas to day, by the Superintendent of the Overland Line, owing to the stock being driven off from some of the stations but it is believed that sufficient troops are being distributed along the route to fully protect it.

New York, August 10.—The McClellan meeting to-night was the largest ever held in the city. The audience is highly estimated at 60,000. Great enthusiasm prevailed.

Cincinnati, Aug. 11.—Gen. Carrington, at Indianapolis has received information that Col. Adam Johnson was at Morganville Kentucky with 1000 men threatening to attack Mount Vernon Indiana. Another force is scattering throughout the adjoining counties preparing to co operate with Johnson. The river is very low and can be easily forded: the gunboats cannot operate. Carrington has ordered the whole line to the northern bank to be picketed and has made a requisition upon Gov. Morton for 2500 men.

A later dispatch says 150 rebels attacked the 48th Kentucky regiment on the 9th, at Salem, and were seriously repulsed.

Last Night's Dispatches.

Washington, Aug. 11.—A dispatch to General Dix says: No further intelligence has been received from Mobile, except from deserters who report the capture of the city. Nothing official has been received.

Sherman reports all well. He is knocking Atlanta to pieces with 4½ inch shells.

No movement before Petersburg by our forces.

Sheridan has not been heard from to day.

(Signed) STANTON

New York, Aug. 12.—A correspondent from Sheridan's army dated the 11th says Sheridan is on the march towards Winchester. Imboden's cavalry is skirmishing with his advance. He expects a battle at Opequan Creek 5 miles this side of Winchester, otherwise the enemy must retreat up the valley.

Martinsburg is occupied by our forces.

Washington, Aug. 11.—Dispatches from Farragut are hourly expected.

The Richmond papers yesterday say that they lost fifty guns at Fort Gains and 100 prisoners, also an immense amount of stores of all kinds.

Sherman's dispatches state all the Georgia militia are now in his front under Hood.

At the last advices the situation before Petersburg remained unchanged.

The interest in active military operations now centres in Sheridan's forces who have brilliantly inaugurated the campaign, which goes on most encouragingly.

A Washington special says that there is reason to believe a battle is being fought near Winchester, between Sheridan's forces and the main body of rebels under Early. Very heavy cannonading was heard in that direction and at Harper's Ferry yesterday afternoon, and it is known that our forces are close upon the rebels.

Petersburg dispatches of the 10th report a great conflagration on our right, which is supposed to be the houses comprising the commissary depot. The result is unknown.

Cairo, Aug. 12.—Two hundred rebel cavalry attacked Sultana on the Cumberland river on Sunday morning and were repulsed.

One thousand guerrillas are reported to be at Union City [illegible] under Col. Johnson also, that there is a large number in the west part of the State of Tennessee. Gen. Paine has gone down there to clean them out.

New Orleans, Aug. 6.—Our gunboats made an expedition up Grand Lake on the 20th and destroyed a large number of flat boats just completed by the rebels, saw mills and captured a lot of valuable lumber.

Six transports arrived at New Orleans from Brazos probably with troops withdrawn from the State of Texas.

Washington, Aug. 12.—A letter from the Army of the Potomac represents that all is quiet.

Dates from the Quarantine, New York 12th, says that the rebel pirate is reported to be 60 miles south from Sandy Hook. She captured the pilot boat *James F.* yesterday.

New York, Aug. 12.—The New Orleans *True Delta* says that Beauregard has gone to Atlanta with 20 000 men. He will rank Hood in command there.

The Richmond *Enquirer* says that the enemy have 500 guns bearing on Petersburg with which they can sweep the city through and through. Hence its capture in front would not amount to anything.

Private advices quote gold on the 11th at from 2[illegible] to 25[illegible]

California News.

San Francisco, Aug. 12.—Currency bills, 140; coin bills [illegible] legal tenders for the week have been 39¼@40.

T. C. Sunborn recently the heaviest stock broker here has filed a petition of insolvency. Assets, nothing; liabilities $62 000.

Markets.—Good milling new wheat in demand at $3 20@3 30; barley demand [illegible] @3 10@3 15 for prime new.

Affray at Salem.

Salem, Aug. 12.—A serious affray occurred yesterday afternoon between Indian Superintendent Huntington and W. H. Watkins in Heath Dearborn & Co's store. Watkins made personal and abusive remarks on Huntington's presence about the *verbatim* publication of a letter in the *Statesman* purporting to have been written by Watkins. Huntington slapped Watkins in the face, when the latter knocked him down with a mucilage bottle, striking him several times. Huntington's face is seriously cut up.

The First Iron [illegible] for the Navy.—Recently the second vessel of the first fleet of iron men of war built for the United States Navy was launched at Jersey City. She is called the *Mohongo* and is [illegible] seven ships recently ordered by the Navy Department. Before the construction of the fleet was determined on, the Government tried the value of the projected craft by building the *Wateree* which has just joined the Pacific squadron. The fleet of which the *Mohongo* is the first launched, consists of the following named vessels:

Name	*Tons*	*Guns*	*Where building*
Ashuelot	1 030	10	Boston
Mohongo	1 030	10	Jersey City
Monocacy	1 030	10	Baltimore
Mu[illegible]ta	1 030	10	Boston
Shamokin	1,030	10	Chester
Suwanee	1 030	10	New York
Winnipec	1 030	10	Boston

The New York *News* says that the dimensions of the *Mohongo* are as follows: Length 240 feet, width 35 feet, depth of hold 12 feet—the same in fact, as the twenty seven wooden vessels which were completed some time since. After the launch the ship was towed to the neighborhood of the machine shop to receive her engines. The entire fleet will probably be completed by the 1st of September.

Emigrants.—Some wagons with emigrant families from San Jose, California, were in town this morning. Their animals were as poor as if they had crossed the plains. We learn that they intend to settle in Polk county. It is said that 140 wagons are this side of Red Bluff, containing families who are taking refuge from the drought of California in the damps of web foot. Many of them formerly lived in Oregon, but were not satisfied. They think after trial that California is not Paradise quite.—*Statesman Aug 11th*

Sanitary.—We understand the ladies of Portland and Salem intend to go ahead with the Sanitary Fair to be held at the time of the Agricultural Fair. A circular setting forth their plan is soon to be issued.—*Statesman*

Returned.—Richard A. Barker who was wounded in the fight with Indians near Warm Springs one month ago has returned to Salem. He is slowly recovering from his severe wound.—*Statesman*

The Richmond *Examiner* says that there have been 97 000 prisoners received at Libby since the battle of Bull Run.

Oregon apples are as much sought after in San Francisco as Heuston, Hastings & Co's clothing. Every one knows the flavor of the one, and the durability and style of the other.

Oregonians should test the merits of Dr HOSTETTER'S STOMACH BITTERS. While it is highly palatable as a beverage, it is unequaled as an invigorator. In the pursuit of fortune at the mines, many persons are exposed to the attacks of complaints of the digestive organs, and of various kinds of fever. It is the very article that has so long been in demand at the mines. Its daily use will restore the tone of a deranged stomach, impart fresh vitality to the digestive functions and cheer the spirits. Yet the Bitters is the safest of all stimulants. Let the miner who is exposed to hot and dry, wet and cold, be certain to obtain a supply of the genuine Hostetter Bitters, and he will find it a certain safeguard to health.—Sold by Druggists and dealers generally. jy2odaw

"A Slight Cold," Coughs.—Few are aware of the importance of checking a Cough or "slight cold" in its first stage, that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs. "*Brown's Bronchial Troches*" give sure and almost immediate relief. *Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.*

REDINGTON & Co, San Francisco, Agents for the Pacific Coast.

Dysentery.—For Dysentery and similar complaints of the Summer season the PERUVIAN SYRUP has proved a remarkable preventive and cure. By imparting tone to the intestinal mucous membrane, it places this surface in the best possible condition to resist the irritation of crude and indigestible articles of food.

Periodical Headache—so common in uncleared and marshy countries, Tic Douloureux, that most painful affection of the nerves of the face, are often only attacks of ague in *disguise*—proceeding from the same noxious influence. Jaundice, Dyspepsia and Diarrhea are frequently but disguised forms of Intermittent Fever. Even Rheumatism and Epilepsy, often result from the same miasmatic cause. For such, Dr Osgood's India Cholagogue is an unfailing remedy. By striking at the root of these affections it applies with equal certainty, as for the cure of Fever and Ague in its simplest forms.

Imitations are abroad! Be particular to enquire for *Dr Osgood's India Cholagogue.* Sold everywhere.

It is well known that the medicinal effect of Protoxide of Iron is lost by even a very brief exposure to air and that to maintain a solution of Protoxide of Iron, without further oxidation has been deemed impossible

In the Peruvian Syrup, this desirable point is attained by COMBINATION IN A WAY BEFORE UNKNOWN and this solution may replace all the proto-carbonates citrates and tartrates of the Materia Medica

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DISCOVERY of modern chemistry, and it is impossible to over estimate its influence as a remedial agent Iodine has been considered the most useful article in Materia Medica and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system It is to act upon the

HEART,
LIVER, KIDNEYS,
DIGESTIVE ORGANS AND GLANDULAR SYSTEM,

and to have great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation, it remained almost useless until Dr Henry Anders a physician and chemist of New York, after years of patient labor and experiment, discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER

without a solvent. This, considered impossible by the scientific world, is attested by certificates of analysis from Dr J R Chilton of this city and Prof Booth U S Mint Philadelphia The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals and its use recommended to practitioners (see "American Medical Monthly" July 6, 1860, page 76)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms Consumption, Cancer Heart Liver and Kidney Diseases Rheumatism, Neuralgia, Nervous Affections Dyspepsia, Bronchitis, etc

AS A TONIC

Its operation is evinced by strengthening the digestive organs and increased nutrition of the body is the result of the employment of Iodine The patient recovers flesh, strength and color hitherto pale, relaxed and feeble he becomes full strong and florid
